as Java and Python, along with tools like Git and Agile methodologies.

PROJECTS

Hiresense

MERN,GenAI,pdf-parser

Hiresense is an advanced AI interviewing platform designed to streamline the recruitment process. By leveraging cutting-edge artificial intelligence, Hiresense conducts thorough and objective candidate assessments, ensuring a more efficient and effective hiring experience. The platform utilizes data-driven insights to evaluate candidate responses, providing hiring managers with valuable feedback to make informed decisions. Hiresense not only reduces bias in the hiring process but also significantly shortens the time-to-hire, enabling organizations to secure top talent swiftly and effectively.
